

FRACTRACKER ALLIANCE

INSIGHTS EMPOWERING ACTION

WHAT WE DO

FracTracker Alliance, maps, analyzes, and communicates the risks of oil, gas, and petrochemical development to advance just energy alternatives that protect public health, natural resources, and the climate.

DATA-DRIVEN RESOURCE

We collect data and then analyze, interpret, and map the results. We offer maps of every US state with active drilling and have created hundreds of thematic maps and analyses.

SUPPORT FOR RESEARCH AND ADVOCACY

We offer mapping and analytical services to nonprofit and academic partners working on all types of energy issues across the country and around the world.

COMMUNITY-BASED RESEARCH

We provide more than technical expertise and online resources. We also work in communities, collaborating with local stakeholders to document and learn more about the harms of extraction.

HOW YOU CAN HELP

There are many ways you can get involved. Download the FracTracker mobile app (photo right) to view oil and gas activities around you and contribute insights about their locations and impacts.

Contribute your time and expertise by volunteering with FracTracker, or sign up for alerts on career and internship openings.

Honor a community advocate with a nomination for the Community Sentinel Award. Learn about these opportunities and more: fractracker.org/get-involved/

SUPPORT US

FracTracker has served as a data resource for Dakota Access Pipeline protesters, policymakers deciding on public health setbacks, moms fighting fracking near schools, and researchers identifying health risks from compressor stations.

Like our work? Invest in FracTracker Alliance and empower the public with our growing portfolio of maps, insights, and information. FracTracker is a registered 501(c)3 organization. Your contribution is tax deductible.

Help us be a resource for good. Donate online to FracTracker Alliance at: fractracker.org/donate
